The 7 Lucky Leaves

Once upon a time, in a forest with over 100 towering trees, lived a little squirrel named Nutsy. Nutsy was known for her speed, able to run at least 20 times faster than a snail. One sunny morning, Nutsy was out gathering acorns. She needed exactly 50 acorns for her winter stash, but so far, she only had 43.

As she scurried around the base of a giant oak, she stumbled upon something extraordinary. There, scattered on the forest floor, were 7 leaves, each one larger than any she had ever seen. They shimmered with a golden glow in the dappled sunlight. Intrigued, Nutsy picked up one of the leaves. As she did, she noticed her collection of acorns jumped up by 2.

Excitedly, she picked up another leaf. Again, her acorn count increased by 2. She repeated this, picking up each of the 7 leaves one by one. With each leaf, her acorn total increased by 2! By the time Nutsy had gathered all 7 leaves, she had exactly 57 acorns, more than enough for her winter supply. Nutsy knew then that the 7 leaves were magical and lucky. She hid them in a safe place, knowing she would treasure them forever.
